

# Parent Survey 2023

Thank you to everyone who took part and shared their views. We had 68 responses which is approximately 44% of our families. I would always be aiming for 100%, but the figures hopefully represent the general feeling. We appreciate all the feedback, and we will be working on the suggestions people gave.

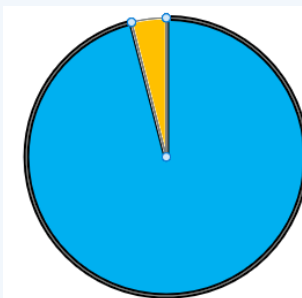

**97%**

Feel their child feels safe at Woodlea.

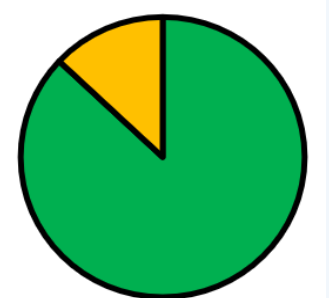

**97%**

Would recommend Woodlea

**96%**

Feel we ensure children are well behaved

**87%**

Feel their child has never been bullied

- No parent felt their child was not doing well at Woodlea.
- 93% feel that we support their child's wider personal development.

87% of respondents feel we have high expectations of their child.

We want to do better and that is why continuing to develop how we challenge children is part of our school improvement plan.

## How we deal with concerns

Of the 72% of parents who had ever raised concerns, 94% of them felt they were dealt with properly.

**Clubs:** While 91% felt their child could take part in clubs, some commented that they would like a wider range, or that there were not many places. We are always looking to add additional outside providers for clubs and will continue to do so.

**Communication about learning:** 94% felt that we let them know how their child is doing at school. But many of the additional comments focused on how parents would like more information. This is something we will be developing as we know how supportive you are of your children's learning.
