## **Vision - Ready for Life**

Our vision at Woodlea Primary School is to get every child Ready for Life. We don't just prepare children for exams; through our three core aims, we seek to develop children holistically so that they are ready to face the wider world at secondary and beyond.

### **Aims**

We achieve our Vision through our three core aims:

Enable individual academic success

Develop creative skills through broad learning experiences

Foster an emotional understanding of ourselves and others

### **Values**

We seek to achieve these aims by exhibiting our four school values. Children at Woodlea are:

Respectful

Caring

Resilient

Curious

## **Equality and Access**

All children are entitled to welcoming and accessible play provision, irrespective of gender, economic or social circumstances, ethnic or cultural background or origin or individual abilities. It is our responsibility to ensure adequate provision is provided.

This policy will be closely monitored by the Senior Leadership Team and a working party and reviewed based on the needs of the adults and children in the school.

The policy will be reviewed in line with the SEND code of practice to ensure all children are able to access the play provision (this may mean with support for some children).

All parts of play provision can be accessible. Please see our [Accessibility Plan](#) which can be found on the school website.

## **Rationale**

Our school believes that all children need opportunities to play which allow them to explore, manipulate, experience and affect their environment. The school acknowledges the UN Charter on the Rights of the Child, especially Article 31, and supports the child's right to play. We believe play provision should be: Welcoming and accessible to every child, irrespective of gender, sexual orientation, economic or social circumstances, ethnic or cultural background or origin, or individual abilities. The rationale is that ... "better, more active and creative playtimes can mean happier and healthier children, and having happier, healthier, more active children usually results in a more positive attitude to learning in school, with more effective classroom lessons, less staff time spent resolving unnecessary behavioural problems, fewer playtime accidents, happier staff and a healthier attitude to life".

## The Value of Play

Play underpins the EYFS. It also underpins learning and all aspects of children's development. Through play, children develop language skills, their emotions and creativity, social and intellectual skills. For most children their play is natural and spontaneous although some children may need extra help from adults. We want these benefits to apply to all our children whilst at play at Woodlea.

Play is defined as any freely chosen activity which a child finds satisfying and creative. It may or may not involve equipment or other people. We believe the learning opportunities of play include:

- Emotions e.g. learning about oneself and others, sadness/gladness, rejection/acceptance, frustration/achievement, boredom/fascination, fear/confidence.
- Social interactions - enhancing self-esteem and understanding of others through freely chosen interactions e.g. within peer groups, with individuals, with groups of different ages, abilities, interests, gender, ethnicity and culture.
- Learn how to play new games.
- Making choices, problem solving, being creative.
- Achieving and also coping with failing.
- Communication and negotiation skills.
- Motor Skills

## The Adults Role in Play

The school will help children maximize the benefits they can gain from play by provision of trained staff who are informed by and work to the Play work Principles.

- Play is essential for physical, emotional, social, spiritual and intellectual development.
- Play enables children to explore the physical and social environment, different concepts and ideas.
- Encourages self-confidence and the ability to make choices.
- Play is critical to children's physical and emotional health and enables them to explore and develop the balance between their right to act freely and their responsibilities to others.
- Free play can have a direct positive impact on a child's ability to reach their potential

## Aims: The school aims to address the provision of improved play opportunities:

- To ensure play settings provide a varied, challenging and stimulating environment.
- To allow children to take risks and use a common-sense approach to these risks and their benefits.
- To provide opportunities for children to develop their relationships with each other.
- To enable children to develop respect for their surroundings and each other.
- To aid children's physical, emotional, social, spiritual and intellectual development.
- To provide a range of environments which will encourage children to explore and play imaginatively.
- To provide a range of environments which will support children's learning across the curriculum and learning about the world around them.
- To promote independence and teamwork within children.
- To build emotional and physical resilience.

## **Benefit and Risk**

*‘Play is great for children’s well-being and development. When planning and providing play opportunities, the goal is not to eliminate risk, but to weigh up the risks and benefits. No child will learn about risk if they are wrapped in cotton wool’*

### **Managing Risk in Play Provision: Implementation guide is published for Play England 2012.**

The school will use the Health and Safety Executive guidance document ‘Children’s Play and Leisure – Promoting a Balanced Approach’ (September 2012) as the principle value statement informing its approach to managing risk in play. It will adopt a benefits/risk approach as detailed in ‘Managing Risk in Play Provision’ Implementation Guide.

### **Managing Risk in Play Provision:**

Risk-taking is an essential feature of play provision, and of all environments in which children and young people legitimately spend time at play. Play provision aims to offer children and young people the chance to encounter acceptable risks as part of a stimulating, challenging and controlled learning environment. In the words of the play sector publication Best Play, play provision should aim to ‘manage the balance between the need to offer risk and the need to keep children and Young people safe from harm’. In addition to standard risk/benefit assessments the school will practice dynamic risk management with children encouraging them to identify and manage risks in an environment where adults are present to support them.

### **First Aid**

All lunchtime staff carry a red rucksack, which contains basic First Aid equipment.

There is also additional First Aid equipment stored in the office. All of the lunchtime staff are First Aid trained and this is updated regularly.

Any head bumps must be reported to parents via a bump note and email; this will be completed by the member of staff dealing with the child.

If an incident involving a child requires a phone call home, the SLT will be notified and if deemed necessary, will look into the risk management of that particular incident/resource. All First Aid incidents should be recorded in the accident books kept within the office.

### **Supervision**

The law requires that children in school have supervision but for primary school playtimes there are no stated ratios. During the school day there should be one or more adults present outdoors. The school recognises OPAL’s three models of supervision Direct, Remote and Ranging. Except for new children in reception the school does not believe direct supervision is possible or beneficial. Supervision will take remote and ranging models, so that children can quickly find an adult, and adults can patrol large sites to gain an awareness of the kinds of play and levels of risk likely to be emerging.

### **The Adults’ Role in Play**

Staff will use and refer to ‘The Principles of Play work’ when appropriate interventions are needed, but ultimately will strive for facilitating an environment which nurtures self-directed play. The lead play-worker’s core function is to create an environment which will stimulate children’s play and maximise their opportunities for a wide range of play experiences. A skilled and experienced play-worker is capable of enriching the child’s play experience both in terms of the design and resources of the physical environment and in terms of the attitudes and culture fostered within the play setting.

Play-workers are a channel of access to new materials and tools and they can act as a stimulus to children to explore and learn. They are available to participate in the play if invited. The lead playworker will work alongside other supervising staff to ensure the principles of play are being implemented. This can also include training others to become play workers too.

### **Environment**

We believe that a rich play setting should ensure that all children have access to a stimulating environment that are free from unacceptable risk and thereby offer the opportunity to explore both themselves, through their freely chosen play.

### **Clothing**

We would advise as staff that all children come prepared for outdoor/ all-weather play.

During the colder and wet weather wellies or walking boots should be worn by staff and children when walking on the school field or in the woods.

Children should also wear coats during cold weather.

Children need to be responsible for managing their outdoor clothing. This includes being prepared before they go outside to play. In the summer children will need sun cream and hats to protect themselves.

Part of outdoor play means children may get muddy. We will endeavour to reduce this as much as possible but free play means allowing children to explore the areas they like. A uniform is designed to give children a sense of belonging but also a way to protect their 'good' clothes they wear at home.

### **Playground Angels**

To support children to be active in their play, we use Playground Angels to implement guided playtime activities.

Playground Angels are Year 6 Children who carry out this important role to ensure playtimes at Woodlea are happy and productive. Playground Angels undertake training to develop their skills in leadership and organisation. They ensure games and activities are enjoyable, inclusive, safe and fair. During morning and lunch break, games and activities are on offer for all children.

The activities they facilitate are on a rota and change throughout the year to allow for variety and to reflect the change in the environment over the seasons. These may include: Scootfit, Football, Hockey, Tennis, Table tennis, Badminton, Netball, Basketball and Dance.

This means that children are well-provided for at break times with activities and sports to participate in, leading to a positive active playtime experience for all which enables the children to return to the classroom regulated ready to learn.

Not only do Playground Angels ensure organisation of activities, their roles are also to encourage younger children to take part in games, help develop friendships, develop teamwork skills, build self-confidence and self-esteem, develop social skills, aid with conflict resolution and promote physical activity.

### **Woodland and Loose Parts**

At Woodlea, we are privileged to have a wonderful woodland outdoor environment where children immerse themselves in imaginative play as well as being able to explore the environment actively.

To enhance this environment even further, we have invested in play time provision with the purchase of Loose Parts equipment. This contains an assortment of equipment which the children can use freely to construct, to role play, to create and explore. Research has shown that this kind of equipment and play:

- Boosts imagination and creativity
- Develops social and emotional skills
- Develops critical thinking, problem-solving and negotiation skills
- Strengthens independence and sense of self
- Enhances cognitive abilities
- Develop fine and gross motor skills
- Develop hand-eye coordination
- Build vocabulary
